

Bath Bombs & Tablets

History—British social history

Choosing people & subjects to fit within your selected period of British history post-1066, examine developments in medical science & public health. This can closely link with your chosen scientists too.

Examples:

Middle Ages & Tudors—Black Death / Bubonic plague

19th C—cholera (Snow), antiseptics (Lister), sanitation (Bazalgette), nursing (Seacole & Nightingale)

1920s—discovery of antibiotics (Fleming)

1940s—creation of NHS

1950s—Structure of DNA (Franklin, Watson & Crick)

1970s—IVF (Steptoe)

1990s—Human Genome Project
