

Bath Bombs & Tablets

Sarita keeps a record of how many bath bombs she makes each day. Fill in the gaps in the table, then answer the questions.

	Lavender	Vanilla	Orange	Total
Mon	30	30	15	75
Tues	40	20		
Wed	20		15	65
Thurs		10	0	20
Fri	30	20	20	70
Total		110	70	310

Which scent does she make the most of? -----

On which day was she busiest? -----

Which day did she stop work early? -----

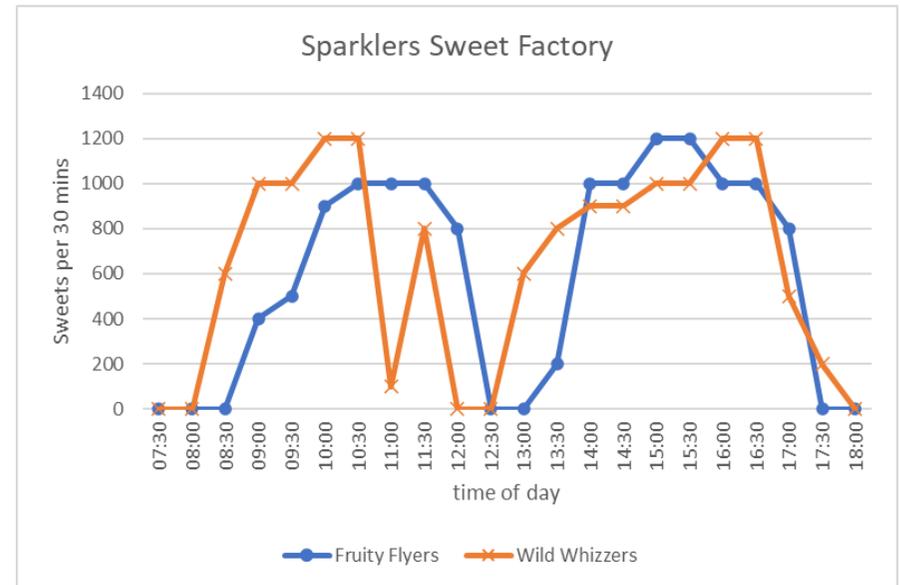

It costs her 50p each in ingredients. How much does this week's work cost? -----

If she sold them all for £2 each, how much profit would she make? -----

Bath Bombs & Tablets

The chart shows the number of sweets made every half hour on two production lines in a factory. Look at the chart, then answer the questions.

What is the highest number of sweets made in 30 mins? -----

When did the Fruity Flyers team go on lunchbreak? -----

At 10am, which sweet was being made the most? -----

At what time were 500 Wild Whizzers being made? -----

Which team worked the longest day? -----

What was the total number of sweets being made at 9am? -----

What do you think might have been happening at 11am?

Bath Bombs & Tablets

ANSWERS

Sarita keeps a record of how many bath bombs she makes each day. Fill in the gaps in the table, then answer the questions.

	Lavender	Vanilla	Orange	Total
Mon	30	30	15	75
Tues	40	20	20	80
Wed	20	30	15	65
Thurs	10	10	0	20
Fri	30	20	20	70
Total	130	110	70	310

Which scent does she make the most of? **Lavender (130)**

On which day was she busiest? **Tuesday (80)**

Which day did she stop work early? **Thursday (20)**

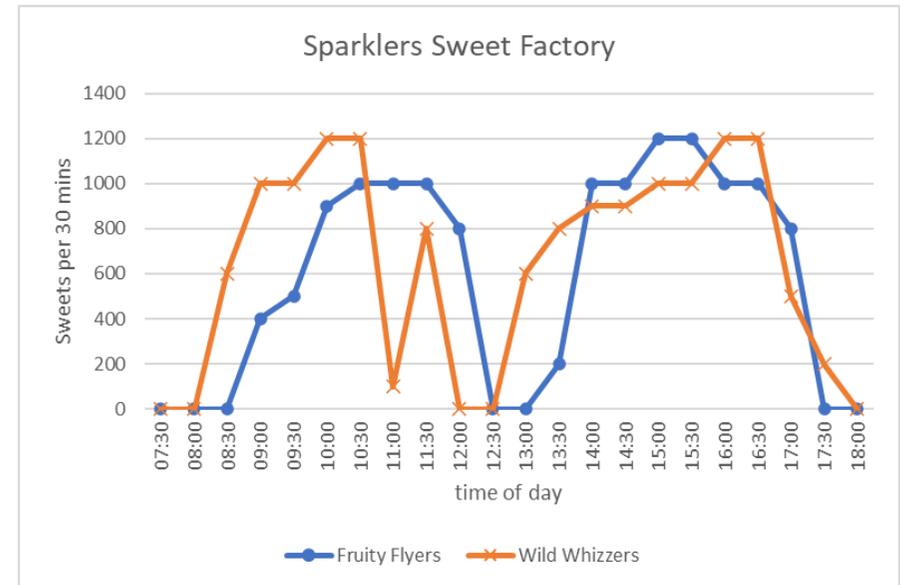

It costs her 50p each in ingredients. How much does this week's work cost? $310/2 = \text{£}155$ or $310 \times 50 = 15500 = \text{£}155$ (easier if they start from 50p is 1/2 of £1)

If she sold them all for £2 each, how much profit would she make? $310 \times 2 = 620$, then $620 - 155 = \text{£}465$

Bath Bombs & Tablets

ANSWERS

The chart shows the number of sweets made every half hour on two production lines in a factory. Look at the chart, then answer the questions.

What is the highest number of sweets made in 30 mins? **1200**

When did the Fruity Flyers team go on lunchbreak? **12:30-13:00**

At 10am, which sweet was being made the most? **WW**

At what time were 500 Wild Whizzers being made? **17:00 / 5pm**

Which team worked the longest day? **WW (started 1st & ended last)**

What was the total number of sweets being made at 9am? **1400**

What do you think might have been happening at 11am? **WW line broke down, or extra tea break, or any other explanation for working v slowly.**
